Release Notes of Continuous Delivery

 Version 1.3 includes highest priority bugs and continuous delivery (CD) tasks

Here are the key implementations and fixes:

1. New export functionality UX Improvements deployed
2. Added 'status' to user list page
3. Fixed experience for stage assignees when groups are archived
4. When a user has completed a scorecard and is reassigned to complete a scorecard: when there is a previous response from the user, the evaluation widget will be in edit mode vs. non edit mode when user hits page
5. Updated link for the 'new submission digest email' at top of email that has typo
6. Images are now appearing on post updates at both the challenge and community level
7. Fixing target="_blank" now redirects on the global search page
8. Can now search ideas in the dropdown menu as admin in certain stage in platform
9. Sorting and filtering options now work on milestones and tasks tab

Detailed Notes For Each Task:

1. New export functionality UX Improvements deployed
 - Improved the consistency of exports, added an alert message, “download” or “View all exports” option. Removed the exports section from notifications and also added a ‘My Exports’ option in ‘My Profile’ dropdown
 - Tested and Verified 
2. Added 'status' to user list page
 - Added in a new column which displays the users active status on all tabs (ie: this is visible on active, pending, archived)
 - Tested and Verified 

3. Fixed experience for stage assignees when groups are archived
 - Warn users when they are deleting a group that the group is currently assigned to action items
 - Allow user to unarchive a group
 - Display a warning label on stages for archived groups that are assigned to complete stages
 - Added columns to the groups list page
 - Tested and Verified 
4. When a user has completed a scorecard and is reassigned to complete a scorecard: when there is a previous response from the user, the evaluation widget will be in edit mode vs. non edit mode when user hits page
 - When an assignee submits a response, it should displays in non editable mode
 - Tested and Verified 
5. Updated link for the 'new submission digest email' at top of email that has typo
 - Remove 's from the post type name in the top of 'New Submission Digest Email'
 - Tested and Verified 
6. Images are now appearing on post updates at both the challenge and community level
 - Images attached to a post update were not appearing on the thumbnail
 - Tested and Verified 
7. Fixing target="_blank" now redirects on the global search page
 - Filtered search results now open in the same tab and do not redirect to a new tab
 - Tested and Verified 
8. Can now search ideas in the dropdown menu as admin in certain stage in platform
 - Admin now sees any idea or stage in the global search, without being the assignee to the submission
 - Tested and verified 
9. Sorting and filtering options now work on milestones and tasks tab
 - Assignees or tasks can now be sorted or filtered in the milestone & tasks section
 - Tested and Verified
