

## Ideawake - Release Notes of Continuous Delivery

---

September 15, 2025

 Version 1.3 includes bugs and continuous delivery (CD) tasks

### Here are the key implementations and fixes:

1. Added break- all style for long words in description.
2. The description label display on the 'about' tab was not displaying correctly based on the updated default field.
3. Users can now add in variables to 'stage change' email notifications (specific custom fields such as idea title, submitters, owners etc).
4. When a user submits an idea and uses the '&' Symbol, the idea title no longer lists the & character as &amp;.
5. When the user completes a refinement stage, clicks 'refresh page' and off-clicks the idea, the 'unsaved changes' pop-up no longer appears.
6. Improved default images getting referenced in 'featured image' functionality.
7. Star ratings removed for the observer role.
8. Default custom fields and idea collaborators sync issue resolved.
9. Now able to view/scroll all workflows on 'All Ideas' - swimlanes view.

### Detailed notes for each task:

1. Added break- all style for long words in description.
  - Used break-all style to fix. Now large words are displayed properly.
  - Tested and Verified 
2. The description label display on the 'about' tab was not displaying correctly based on the updated default field.
  - The issue was that the custom label of the description field was not updating. When changed from community settings - Post Types.
  - Now the description label gets updated.
  - Tested and Verified 
3. Users can now add in variables to 'stage change' email notifications (specific custom fields such as idea title, submitters, owners etc).

- All platform custom fields are displayed in the 'personalize' dropdown in workflow stage notifications section.
  - Tested and Verified 
4. When a user submits an idea and uses the '&' Symbol, the idea title no longer lists the & character as &amp;.
- If the '&' symbol is used in the title, it displays correctly.
  - Tested and Verified 
5. When the user completes a refinement stage, clicks 'refresh page' and off-clicks the idea, the 'unsaved changes' pop-up no longer appears.
- Tested and Verified 
6. Improved default images getting referenced in 'featured image' functionality.
- Default images are displaying "business" based images for the challenge or idea feature image functionality.
  - Tested and Verified 
7. Star ratings removed for the observer role.
- If a user is logged in as an Observer, they will not be able to see the star rating section if enabled.
  - Tested and Verified 
8. Default custom fields and idea collaborators sync issue resolved.
- On performing any change in the idea 'collaborator' section, default custom fields also is updated.
  - Tested and Verified 
9. Now able to view/scroll all workflows on 'All Ideas' - swimlanes view.
- All platform workflows are now scrollable in the swimlane view.
  - Tested and Verified
