

Ideawake Release Notes – Batch 42.2-CD

Release Date: 09/28/2026

CD Tasks:

1. Calculated fields in filtering options
2. File-based provisioning “Provision Users Now” behavior resolved
3. Private fields optimized

Bugs Fixed:

1. Long filename upload 404 error
2. Challenge follower resubscription
3. “No Challenge” filter
4. Numerical field formatting on list pages
5. Completed action item remains in Open tab
6. Duplicate notifications when adding Owner/Team Member/Co-submitter
7. Group/user notification on stage change
8. Incorrect count of 'pending invite' users

CD Tasks Details:

- 1. Calculated fields in filtering options**
 - Calculated fields are now added to filters on table list view.
- 2. File-Based Provisioning “Provision Users Now” behavior UX updated**
 - Previous to this fix, UX resulted in an error. Now Resolved.
- 3. Private Fields optimized.**
 - Users without the required permissions are prevented from accessing private responses.

Bugs Fixed Details:

- 1. Long filename upload 404 error**
 - File upload flow handles long filenames.

2. Challenge follower resubscription

- The challenge will only be followed when the user manually selects 'Follow' and will not automatically be followed when a user posts or comments on an idea.

3. “No Challenge” filter

- The 'No Challenge' filter on the 'All Ideas' page correctly displays ideas that are not associated with any challenge, including imported ideas.

4. Numerical field formatting on list pages

- The formatting configured for numerical expression fields are now correctly reflected on individual idea pages and on the 'All Ideas' list page

5. Completed action item remains in Open tab

- After an action item is completed, the action item is removed from the 'Open' tab and moved to the appropriate 'Closed' section immediately after completion.

6. Duplicate notifications when adding Owner/Team Member/Co-submitter

- The users now receive a notification only when their assignment actually changes, preventing unnecessary duplicate notifications.

7. Group/user notification on stage change

- When a group is selected in the stage notification settings, its members receive the appropriate notification when a submission is completed.

8. Incorrect count of 'pending invite' users

- The pending user count is consistent with the export.
